**Provincial Achievement Tests
Summary Results Report 2017 - 2018**

The charts on the following pages report Forest Green School's student achievement on Provincial Achievement Tests. Individual subjects are provided in historical detail on the pages that follow.

Some considerations:

Both areas of growth indicated in last year's report saw improved results:

- In Math 6, 21% more students achieved the acceptable standard from the year before.
- In Social 6, a slight increase in the number of students achieving the acceptable standard was noted.
- There is a three-year trend of improvement in Social Studies 6.

The standard of excellence indicator is an area for increased focus:

- There were no students in grade 6 that achieved the standard of excellence in any subject.
- This is not a trend and is likely indicative of an anomaly within the sample group.

Social 6 and Science 6 continue to be an area in need of growth:

- At the school level, the Social Studies 6 results have improved again this year; however, the results are significantly lower than the provincial and divisional results.
- Science 6 is in decline for the third year in a row.
- Two of the three grade six teachers this year are new to elementary and will need professional development opportunities as well as support from Collaborative Teaching Partners, school administration, and fellow teachers to come up to speed on the curricular objectives as they pertain to the Provincial Achievement Tests.
